Creative project development

The wedding's theme is crafted by defining a cohesive style, color palette, and overall aesthetic that aligns with the couple's vision and sets a unified tone for the entire event.

This theme extends to every detail, creating a seamless identity that ties together the floral design, table décor, tableau de mariage (guest seating arrangement), wedding favors, menu presentation etc.

Each element is chosen thoughtfully to reflect the theme, from the types of flowers and their arrangements to the style of table settings and the color scheme in every detail.

The entire creative vision is presented and refined through mood boards and images, which illustrate the proposed design elements and provide a tangible preview of how each component will look and feel, ensuring alignment with the client's expectations.

The "location set-up" offering is meticulously designed to bring the couple's vision to life through a cohesive arrangement of all spaces. Based on the creative project and chosen theme, we craft a setup that creates the desired atmosphere, attending to every detail to ensure a memorable experience.

A tailored lighting plot plays a key role in this setup, with specific lighting choices enhancing key area and setting the tone for the entire venue with ambient lights that create warmth and depth.

To ensure flexibility and preparedness, we also develop a fully considered Plan B, adapted to the confirmed guest count and creative vision, allowing us to maintain the aesthetic and flow of the event in any scenario.

Together, these elements transform the space into an immersive environment that resonates with the theme and provides a seamless flow throughout, ensuring the event atmosphere feels cohesive and reflective of the couple's unique style.

Location Set-up & Light design

Location Scouting

Our venue selection service begins with a broad exploration of locations to fully understand and capture the couple's vision, taste, and specific event needs. We begin by reviewing an initial brief that includes key details such as the guest count, budget, desired atmosphere, and any specific requirements or preferences the couple may have.

With this information, we compile an extensive list of diverse venues, carefully selected to offer a range of options that align with the couple's aesthetic and practical considerations.

For each shortlisted venue, we handle all initial communication, contacting each location to gather essential details regarding availability for the couple's chosen dates, capacity limits to ensure guest comfort, rental fees, and any potential additional costs. We also obtain specific information on layout options, on-site amenities, vendor policies, and other useful insights that may impact the planning or guest experience.

Our goal is to provide a clear, detailed comparison of each shortlisted venue, empowering the couple to make an informed choice with confidence that their chosen location aligns with both their dream aesthetic and logistical needs.

Selection of venue for Ceremony

Support in the selection of the church or the location where the union will be celebrated. The most ideal venues will be selected following instructions for a religious wedding or a civil ceremony and considering the couple's requests and the event logistics.

Religious/civil Ceremony docs

Support in compiling and submitting all requested documents for a religious/civil ceremony.

Floral design

MIIA - Events & Flowers provides a dedicated floral service, where our team personally designs and arranges all floral elements to suit the couple's vision and theme. This service is available as an additional option and can be tailored to complement the event's aesthetic.

While we're delighted to handle both planning and floral arrangements, this is entirely optional; couples are welcome to engage MIIA solely for event planning if they prefer to use another florist.

Selection of the style, color, type and flower arrangement layouts for the ceremony venue, reception location, bride's bouquet, groom's boutonniere and other additional decorations. The service includes: theme creation, assistance and coordination with the chosen supplier and final proposal validation.

A bride with blonde hair, wearing a long white veil and a white wedding dress with a deep V-back, stands on stone steps. She is looking over her shoulder towards the camera. The background features a rustic stone wall and some greenery. The lighting is warm, suggesting late afternoon or early morning.

“AN ABSOLUTE PERFECT EXPERIENCE. I’M
EXTREMELY IMPRESSED AND WILL DEFINITELY
RECOMMEND MIIA. GREAT COMMUNICATION
AND IMPECCABLE WORK.”
